## COMPANY INTRODUCTION

FUJIAN ROVOS FITNESS CO., LTD. was established in 2007. With the corporate mission of "Technology Leads Healthy Life" and the willingness to work hard, ROVOS teams bring exemplary innovation to every product.

With decade of tempering, ROVOS completes its accumulation. In the process of gradual development, ROVOS has become a high-tech enterprise integrating R&D, manufacturing and marketing, and has won the honorary title of the first batch of provincial "Specialized and Special New" companies.

With more than 40,000m<sup>2</sup> production area and 800 employees, ROVOS's

annual production capacity can reach 250,000 units. In 2017, ROVOS has mastered more than 60 R&D patents, of which a number of independent research and development core technologies have reached the international advanced level. Certified by UL, ETL, FDA, CB, CE, KC and RoHS, ROVOS's massage chairs have been exported to North America, Australia, Middle East, Southeast Asia, more than 30 countries and regions.

With the gradual development and expansion, ROVOS has started the IPO listing plan, and will embark on a new start.

# CORE TECHNOLOGY INTRODUCTION

## INTELLIGENT 3D MASSAGE ROLLER

Cloning of the professional masseur, offering the most comfortable massage.

ROVOS massage chairs are designed with the innovative technologies in intelligent 3D massage rollers. 4 Rollers walk up and down, left and right, forward and backward in silently.

Automatical detection on shoulder and micro adjustment accordingly, automatically detect the body physiological curve to make adjustment for massage pressure point, adjust the distance of stretching on the rollers going forward and backward, that enable the massage be more humanized and scientific, relieving the soreness and fatigue, helping the body feel most relaxation and comfort.

# R775W

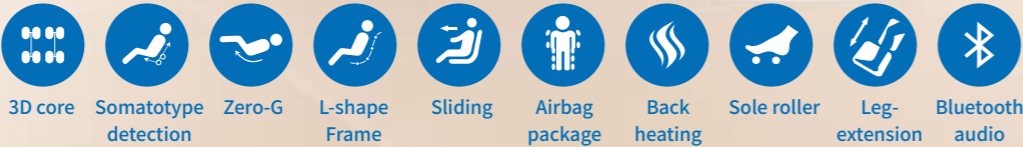

## MASSAGE CHAIR

- Four massage rollers in L-shape frame.
- Massage can be extended to the hip part.
- One button for sliding to save space.
- Zero Gravity.
- Air pressure programs from the head and neck to the hands and soles.
- Extendable footrest.
- Massage Roller for foot.
- The armrest interlocks with back rest.
- Heating function.
- Bluetooth-Enabled Speaker.

# SHARING ECONOMY

The urban population generally have a large workload, high mental stress, scattered leisure time, that can't timely get a professional massage to relieve fatigue. And household massage equipment is expensive (the price of the professional massage chair is about 2000usd-8000usd / set), covering a large area, which is difficult to be accepted by ordinary families.

These people are in urgent need to enjoy convenient, affordable, professional and effective massage solutions during the scattered time.

We are ready to offer a "massage bar" for you anytime and anywhere to create a comfortable and healthy body and mind!

## SHARING ECONOMY IN ALL MAJOR AREAS

# NETWORK SCENE

Intelligent shared massage chair, based on Internet technology to connect products and the cloud, to create an urban experience space for relaxation, and realize the unattended operation of massage chairs. It can be placed in shopping malls, airports, high-speed rail stations, hotels, theaters, tourist attractions, scenic spots, Internet cafes, etc., to meet the needs of consumers to enjoy healthy and leisure services at low cost at any time, further form a one-stop service platform for "health, leisure, and entertainment".

## USAGE SCENARIOS:

QUALITY

## PRODUCT ADVANTAGE

### 4G Solutions

The "MOTREE" software platform goes more independently, stably and securely by its own data traffic section.

### Advantages of Core Technologies

Lengthened L - shaped track enables more comfortable and precise massage.  
One button for sliding to save space

### Quality Assurance

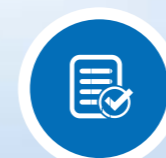

The products have gone through 1,000 hours of durability test .

### Cloud Management System

Cloud service PC management and analysis system and H5 mobile management system improve the ability of operation and maintenance.

## COOPERATION POLICY

### Multiple cooperation modes

Various cooperation modes, such as equipment buyouts and joint ventures, are available for customers to choose.

### Autonomous operation

Easy, convenient and multiple payment modes. Autonomous pricing, online revenue can be viewed in real time.

### Software Support

The massage chair cloud management system is provided freely, allowing customers to easily handle the sharing economy.

### Scene optimization support

Provide support for scene renderings and other design.

### After-sales commitment

The core components are replaced in 1 year and provide 7×24 after-sales service support.
